

Ahead of the Weather

Sigma Soundings

Radiometer + Gridded Analysis

Sigma Sounding from a National Weather Service Radiometer located in Denver, Colorado, USA - Hours before Local Tornado

More Sigma Soundings available at:
radiometrics.com/live-data

Ahead of the Weather

Sigma Soundings

- Radiometric profile integration with gridded thermodynamic and wind analysis
- All weather boundary layer thermodynamics
- Automated wind profile merging
- Easy weather analysis workstation ingest

Unprecedented Local Forecast Improvement

**Available from the
Earth Networks Boundary Layer Network (ENBLN)
and customer-owned radiometers**
